Platform

----- A Concept designed and created by Trinity Media & Marketing Solutions.

Message from - Dr. Shibu John, Founder, 3D GRAPHY

Dear Respondents,

Greeting from Trinity Media – 3D GRAPHY!!

Hope you are all doing fine in this challenging pandemic times. Please do take care of yourself and your family.

Trinity Media have always been in the process of educating and promoting 3D Technology for all the major sectors in India for last 7 years. **3D GRAPHY** is a platform promoting 3D Technology in the midst of the Dental & Medical fraternity.

We have conducted more than 35 plus event with workshops, training programs and conference in the last 7 years. For last 2 years we are conducting workshop's and events not physically but virtually. We believe that even in this pandemic times the best way is to equip oneself with knowledge continue to keep networking to ensure the time is utilized well for self-development and organizations growth.

It gives me immense pleasure to share the potential of a Game Changing technology called 3D Printing. This is indeed a unique technology, which is benefiting almost all sectors. We are operating in a digital world where 3D Printing technology is helping doctors and medical practitioners across specialization for diagnosis and treatment planning with effective solutions.

And starting this financial year 2021 we are happy to launch our platform **3D GRAPHY LABS & 3D GRAPHY FRANCHISE**.

Trinity Media & Marketing Solutions have taken a conscious effort to educate and disseminate the technology to each sector and medical specialization through our platforms to promote it.

3D GRAPHY - Training, Education, Events, Research & Medical Service with 3D printing, 3D Scanning, 3D Imaging, 3D Software, 3D Simulations, 3D Visualization ie. VR & AR Solutions & Materials. More detail on website www.3dgraphy.in

3D GRAPHY WORSHOP is a platform for knowledge, networking and business <https://3dgraphy.in/workshop-2021.html>

We take the opportunity to host **3D GRAPHY WORKSHOP SERIES 2021** with events on different topics and technology.

3D Graphy Workshop on 3D Printing for Medical Devices & Equipment's 2021 will be a virtual event held on 29th August 2021.

The event will be a great opportunity for Medical Devices Companies, Medical Equipment companies, Doctors, Surgeons, Orthotist, Prosthetist, Biomedical Engineers, Hospitals, Medical College Students, 3D printing companies, 3D Software and others to all join for Knowledge, Networking and business.

It is indeed our privilege to have confirmation from our Supporting Association Partners - Association for Indian Medical Device Industry, Association of Healthcare Providers (India), Maharashtra Orthopaedic Association and Force Biomedical. We are very sure the event will be a great learning opportunity for all members of the association joining the event.

We welcome you all to the event.

Thanking You,

Dr. Shibu John,
Founder,

AGENDA

Trinity Media & Marketing Solutions (TMMS) is media company promoting 3D Printing, Artificial Intelligence, 3D Visualisation - VR & AR for last 7 years. We are conducting a series of 3D GRAPHY WORKSHOP with the information about 3D Technology solutions to the Medical fraternity through our events. 3D GRAPHY WORKSHOP SERIES 2021 is a calendar of workshop's addressing each technology and medical specialisation for knowledge, networking and business. We are conducting the 3D GRAPHY WORKSHOP -3D PRINTING FOR MEDICAL DEVICES & EQUIPMENTS a virtual event to be held on 29th August 2021.

SESSION 1 : "3D GRAPHY – Catalyst in creating opportunities setting up 3D GRAPHY LAB'S for Hospitals & 3D GRAPHY FRANCHISE in the country"

SESSION 2 : "3D PRINTING FOR MEDICAL DEVICES & EQUIPMENTS – MASS CUSTOMISATION A GAME CHANGING SCENARIO FORESEEN "

WHICH 3 D TECHNOLOGIES WILL THE VIRTUAL EVENT ADDRESS ?

3D Printing | 3D Imaging | 3D Design | 3D Scanning | 3D Software | 3D Simulation & Materials

3D PRINTERS ?

Direct Metal Laser Sintering | Electron Beam Melting | FDM | DLP | LCD | SLA | SLS | MJP | PJP

MEDICAL ASSOCIATIONS PARTICIPATING IN THE EVENT

Association of Healthcare Providers (India), Association of Indian Medical Device Industry , Maharashtra Orthopaedic Association, Digital Health India Association , Orthotics & Prosthetic Association of India, Orthopaedic Implant Manufacturers Association , Association of Oral and Maxillofacial Surgeons of India , Force Biomedical.

WHO WILL ATTEND?

Medical Device Companies, Medical Equipment companies, Orthopaedic Implant Manufacturing companies, Patient Specific Implant Manufacturers, Hospitals, Diagnostic Labs, Dental Labs, Dental Surgeons, Maxillofacial Surgeons, Paediatric Surgeons, General Surgeons, Orthopaedic Surgeons, Oncologist, Orthotist, Prosthetist Centres, Spine Surgeons, Material Scientist, Biomedical Engineers, Radiologist, 3D Designers, , Medical Diagnostic Centres, Researchers, Dental College, Medical College - Students, Research Institutes, 3D Printing Cos, 3D Software cos, 3D Simulation cos, Entrepreneurs, Investors and others.

EVENT PRELUDE

3D Printing is used today : in Dental & Medical for *pre-operative surgical planning, surgical guides, prototypes, Anatomical Models, Dental Implants, Dentures, Clear Aligners, Obturators, Orbital Floor, Zygomatic Implants, Temporomandibular Joint, Splints, Sleep Apnoea devices, Space maintainers, fixtures, Cranial Implants, Cardio thoracic Stents, Orthopaedic Implants, Acetabular cups, Femoral Stems, Femoral Knee, Spinal Cage, Tibial Tray, Pectus Implant, Sternum Implants, Sacrum Implants, Intramedullary Implants, Toe Implants* and many medical appliances for different applications.

3D Printing is a game changing technology for customise implants. But it constitutes to only one part of the entire process flow. And to achieve the overall expectation of right custom made implants we need the right construct with 3D Imaging, 3D Software, 3D Designing and right Material which is very important. The event will address each aspects and also share some unique case studies from doctors and surgeons who have implemented it with innovative ways offering the right solution to their patients. So it is indeed a game changing technology but only if it is planned and executed rightly.

The event will also share all the 3D Technologies and materials prevalent today which is used in Dental, Orthopaedics, Prosthetics, Orthotics, Medical Devices, Instruments and equipment's.

The event will also share insights about mass customisation which is a great prospect to see how the technology can help economies of scale for customise implants to be cost effective.

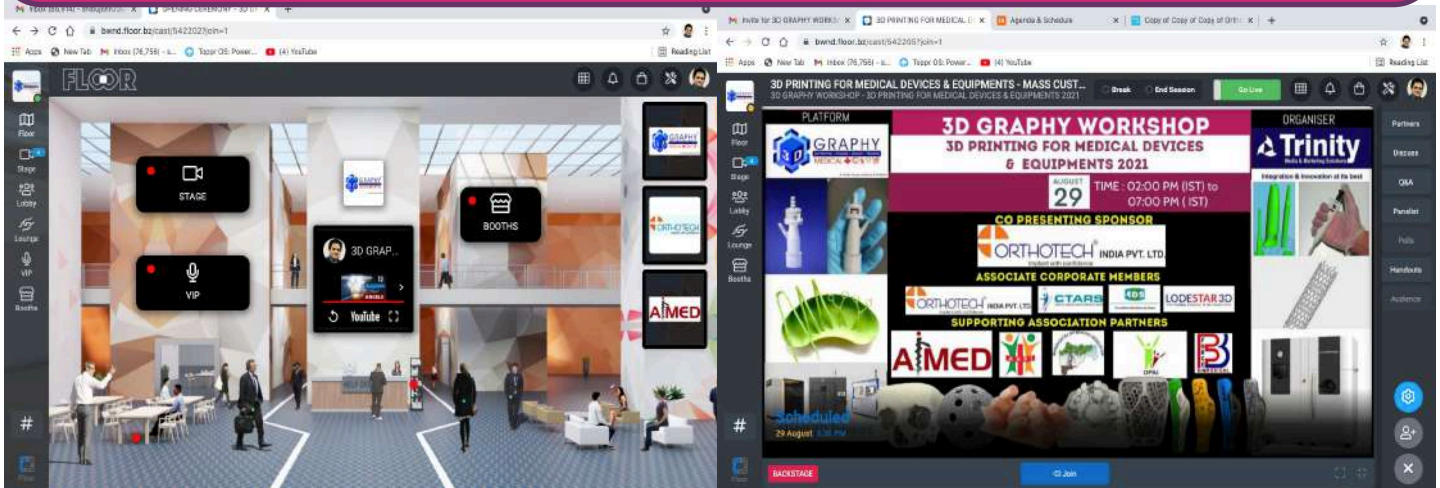

3 D PRINTING TECHNOLOGY | MEDICAL DEVICES | PATIENT SPECIFIC MPLANTS | EQUIPMENTS | MATERIALS |

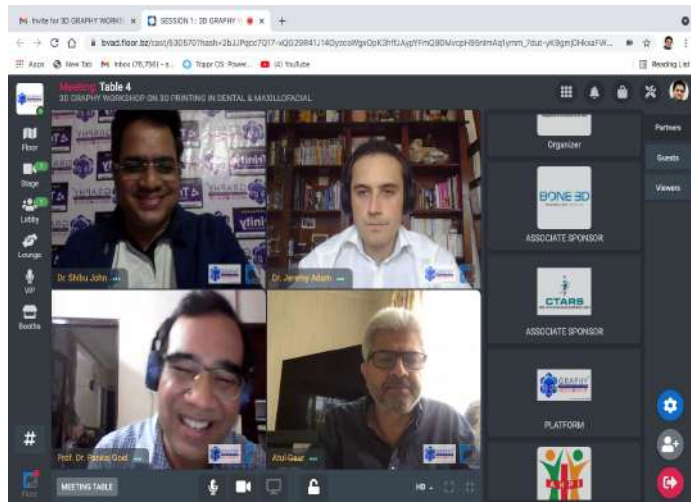

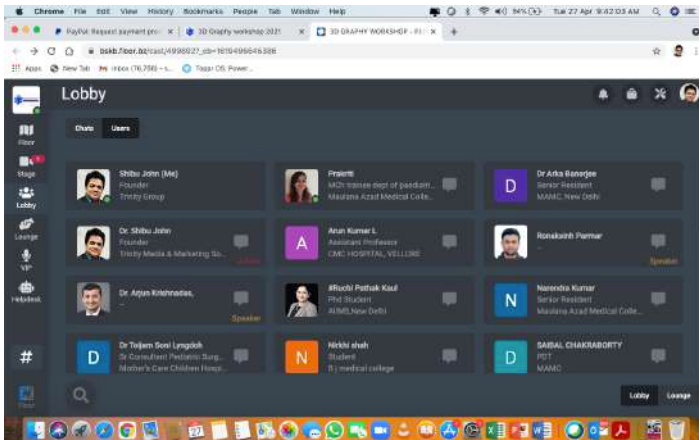

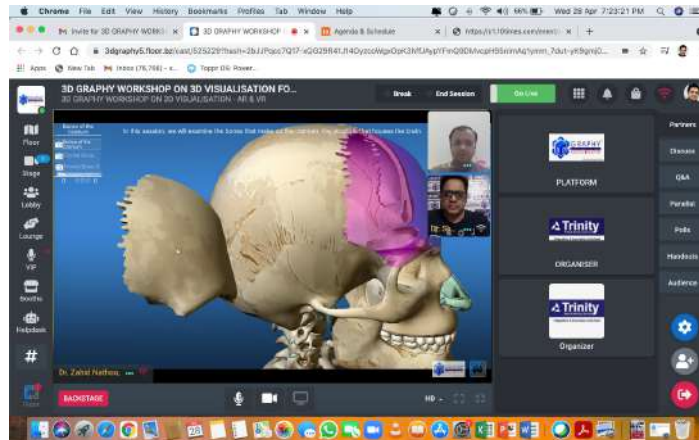

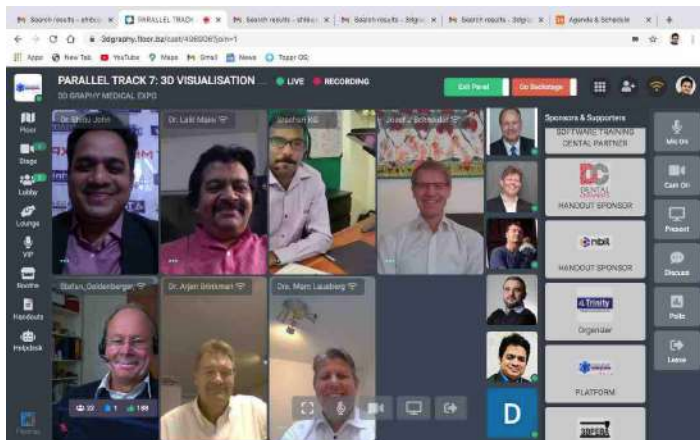

PLATFORM

The platform is very interactive. It is different from a regular zoom or WebEx webinar and is a virtual event software by FLOOR which gives us a live event experience to connect with speakers and delegates. Members can visit the virtual lobby, VIP lounge, Meeting rooms to connect with experts to have a one on one meeting. Also can attend the session and participate in the Q & A raising the hand clicking the hand icon through the laptop screen to be invited on the virtual stage. Members can also visit the virtual exhibition booth to see the product display and meet 3D technology companies. An effective virtual event platform for Knowledge, Networking and business.
