

Online Training Program on **Business Excellence**

Program Brief :

India has emerged as the fourth largest country globally in terms of Gross Domestic Product (GDP). With a wealth of business opportunities, new ventures are sprouting up daily. However, the number of organizations that achieve sustained growth over time remains low. This is often due to a lack of professionalism in business operations, which can lead to failures.

Business Excellence is a comprehensive management approach aimed at continually enhancing organizational performance, consistently generating profits, and delivering value to all stakeholders.

It entails developing and fortifying management systems and processes to achieve remarkable results. This concept is applicable to all types of businesses, irrespective of their size, sector, or profit status.
